How this game is 4th on Steam's user ratings is beyond me. It's 15 minutes of somewhat clever play and then you move on. Not only is it limited as a game, it's one of the weaker graphics games amongst VR. I have only deleted 3 or so dissapointments and this was the first to go.. Wait for a decent sale. 10 hours tops of game time waiting for you. There are a few gripes: cancelling commands is wonky, slow paced for normal speed and trying to speed up the game in the later parts with the number of units you can make is laggy. Not a bad game but not at 15 bucks.. bad game wont even load up for me
. Very smooth matchmaking but a little micro-tranaction heavy. A GREAT ENDING TO AN AMAZING TRILOGY!
The game picks off IMIDIATELY were the last one left off. So i HIGHLY recommend you play The Hero Project before this game. If you didnt however you are givin a nice little recap of the events leading up to this game.

Wish that mass effect 3 gave all your choices meaning? THIS IS THE GAME FOR YOU! It brings back ALL the choices you made in the first two games (so long as you transferd the saves over) and puts YOU right were you deserve to be based on those choices.

The consequences are real in this war. Are you ready?

10\/10 - Loved this game and anyone who loves a good story will feel the same. HIGHLY HIGHLY Recommend you buy the trilogy pack. And start from The Prodigy.

Cant wait to see what comes next in this universe. and if this is the last we see of it? Perfect way for it to end.

Thank you for this amazing story. Chickens forever.

==========EDIT 12\/11\/2014
Just noticed it says i only have .5 hours on record. I can assure you i've played the game multiple times pouring AT LEAST 20 hours into it.... \udb40\udc21. for me this is the best dlc so far but need more pirate decoration inside the house like a pirate flag or a candle or a barrel or a pirate table with a skull and some chairs and something with a parrot so far we have only two swords and a map i can't make pirate atmosphere :(. An awesome platformer from the guy behind the Rayman franchise. Being a platformer veteran, I find the difficulty ramp up at a desirable speed and amount to excitement. Controls are fluid and not at all buggy, and the levels offer the perfect flow along the way. Be prepared though -- it's a game that does not abuse checkpoints for you to nibble through a level.

If I have to be picky, I'd like to see height-adjustable jumps in this game. But the current settings are just great already.

A masterpiece in all.. I loved the original version of this game. But Ubisoft has gone and screwed up another one of their IPs. This game took everything fun about the original, and took it out. Then just added bad acting, glitchy gameplay, and zero replay value. Skip this one for sure. 2/10

an entertaining and very funny game.. This game might just be the end of my mouse and keyboard. It is both infuriating and impossible to stop playing. Might have better luck with a controller rather then using keyboard and mouse. Worth it for the price!. ===[\ud83d\udcca Rating]===

Comments :

- You cannot play Multiplayer mode because of very few players playing it.
- Game mentality is like Diablo, being repetitive, but changing difficulty makes it competitive.
- Dungeon based system.
- Funny crafting and grinding system.
- Nice cosmetics.
- Good game according to anime.. It's basically minesweeper in 3D. If you like that, then you can enjoy this game.. Over all it is just a bad game
